

# portable ramps

## Wheelchair ramps designed to help everyone

Superficially, most ramps seem alike. But thorough evaluation tells a different story. Shortcuts that save a manufacturer money can cost the user dear in reduced ease of use, increased irritation or, occasionally, unsuspected danger. This is why we choose Guldmann ramps, designed and manufactured in Denmark, they are almost certainly the best ramps available. While light in weight and extremely strong, the range offers thoughtful details such as comfortable carry handles, non-rattle fittings and curved top edges for smooth transition from ramp to the higher surface.

## The difference is in the detail

While some manufacturers are content to merely engrave the surface for little more than cosmetic effect, Guldmann insist on providing a high profile non-skid surface. The hinges on the wide folding ramps have been engineered to last a lifetime. If you want to feel safe – FEEL the difference.

For qualified, free\* professional advice and support, Sue and her team are ready to help.

Spring Lane, North, Malvern WR14 1GF

Choose a ramp that won't let you down

## Plain channel ramp

Ideal for use with manual wheelchairs

Easier to handle and lighter to carry than the wider style

Sold in pairs in 3 lengths

## Telescopic suitcase ramp

Single piece, wide style ramps

This telescopic option provides the advantage of being able to store and transport the ramp at a shorter length

Available in 4 lengths

## Threshold ramp

Equalise the room height difference

Lightweight and incredibly strong

Available in 2 widths

## Telescopic channel ramp

Versatile solution for varied situations

With all the benefits of the one above with the ease of transport and storage

Available in 5 lengths

## Wide ramp

For permanent or semi-permanent locations

Easy to align and carers can walk up the ramp. Rounded carry handle. Maximum load 325kg

Available in 3 lengths

## Super lightweight suitcase ramp

Easier to handle than any other on the market

For active wheelchair users, the shortest ramp is so practical and easy to use they will be able to handle and transport it themselves.

Available in 4 lengths

## Suitcase ramp

These lightweight suitcase ramps offer the ultimate in portability

Attendants / carers pushing a wheelchair up the ramp will find the wide style easier to negotiate as they can walk on the ramp itself

Available in 4 lengths

## Wide folding ramp

Long lengths up to 3 metres

Designed for semi-permanent use, and ideal where storage space can be an issue

Available in 4 lengths
